Camberley UK

Year

> 2007, 2008, 2009

Contract value

> 105 million USD

NOTES

Carbon Steel

Driven by a strong international product demand and competitive feedstock pricing, Saudi Kayan Petrochemical Company plans to set up an olefins and amines complex within the industrial city of Jubail. The complex will produce polyethylene, polypropylene, ethylene glycol and amines.

To support the petrochemicals complex planned at Jubail Industrial City, Saudi Kayan Petrochemical Company will undertake construction of a separate offsites and utilities project.

TECHNICAL DATA

Type of products supplied

> Carbon steel and stainless steel piping packages (x4)
Shurjoint fittings for Utilities
Motor operated valves

Quantity

> 2800 line items
Stainless steel pipes: 350 km
