#### Contractor

➤ Petrofac - Sharjah

#### Year

➤ 2009 / 2010

#### Contract value

➤ 5.095 million USD

### ➤ NOTES

#### A USD 2.3 billion contract

Petrofac, the international oil and gas facilities service provider was awarded in 2009 a US\$2.3 billion contract by Abu Dhabi Company for Onshore Oil Operations (ADCO) for the full development of the onshore Asab oil field.

#### Upgrade the production capacity

The main target is to upgrade the production capacity of the Asab field and achieve the committed 1.8 million barrels of oil per day contributing towards achieving the country's additional production.

In addition, the contract scope includes upgrading the facility's capacity to accept increased production from Sahil, Shah and other south east fields and to upgrade the associated utilities and water handling facilities.
